

Transition Newent Food Group

Championing local food

TN Food Group is part of Transition Town Newent and the wider Transition Movement - a community led response to climate change and peak oil. The Food Group is working to make Newent and the surrounding area more self-reliant in food. We welcome involvement from everyone, including the local farming and business community.

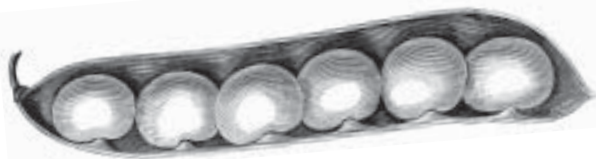

Garden mentor scheme - support, encouragement and advice for first-timers from seasoned gardeners.

Garden share register - do you have an under-used garden or are you a gardener in search of a garden in which to grow food?

Newent Community School - supporting the new garden and Environmental and Land-Based Science course teaching our local students valuable growing skills previously lost from the curriculum.

Spreading the word - visiting local toddler groups, primary schools, etc, to inspire budding food-growers of all ages.

Skill-exchange workshops - topics to include food-plant propagation, seed-saving, food-preservation (bottling, etc).

If you want to know more about (or get involved with) any of these activities please check out the TN Food Group notice board at Shepherd's Deli, 10 Church Street, Newent or email food@transitionnewent.org.uk
